## **Hardscape Crew Leader**

This is a full time, regular, hourly position under the direct supervision of the Landscape Foreman. This position requires the knowledge of all phases of installing any landscape job. This supervisory position also demands ability for teaching skills. Many tasks other than those listed below could be required as instructed by the Landscape Foreman.

- Reports to work on schedule as requested, including some weekends.
- Has a full understanding of all loader operations (including trailering) and the ability to train others in its operation.
- Is knowledgeable of plants and materials used in landscape jobs; specifically block, pavers and stone used in hardscape installations.
- Reads and understands designs and has mathematical abilities to insure proper installation of hardscape materials.
- Greets customers with a friendly tone and communicates in a helpful manner.
- Has the ability to train, motivate and guide employees in the proper tasks needed for installing a job in a timely, cost effective and safe manner – from loading trucks to clean up of finished jobs.
- Has a basic knowledge of vehicle and equipment maintenance, addresses maintenance issues with Landscape Foreman.
- Is responsible for filling out all job related paperwork, including final plants and materials counts and quality control at completion of a job.
- Has the responsibility to insure safe working conditions and report unsafe conditions to the Landscape Foreman.
- Has the responsibility for seeing that proper medical attention is provided for on the job injuries and determining what could be done to prevent any other such injuries from happening again.
- May be asked to conduct safety training seminars at the request of the Landscape Foreman.
