Landscape Crew Leader

This is a full time, regular, hourly position under the direct supervision of the Landscape Foreman. This position requires the knowledge of all phases of installing any landscape job. This supervisory position also demands ability for teaching skills. Many tasks other than those listed below could be required as instructed by the Landscape Foreman.

- Reports to work on schedule as requested, including some weekends.
- May be asked to conduct safety training seminars at the request of the Landscape Foreman.
- Has the responsibility to insure safe working conditions and report unsafe conditions to the Landscape Foreman.
- Has a full understanding of all loader operations (including trailering) and the ability to train others in its operation.
- Has complete knowledge of all phases of a landscape installation job.
- Has the ability to train, motivate and guide employees in the proper tasks needed for installing a job in a timely, cost effective and safe manner – from loading trucks to clean up of finished jobs.
- Is knowledgeable of plants and materials used in landscape jobs.
- Greets customers in a friendly and helpful manner.
- Has a basic knowledge of vehicle and equipment maintenance.
- Is responsible for filling out all job related paperwork, including final plants and materials counts and quality control at completion of a job.
- Has the responsibility for seeing that proper medical attention is provided for on the job injuries and determining what could be done to prevent any other such injuries from happening again.
