## **Landscape Technician**

This is a full time or part time, hourly, seasonal position under the direct supervision of the Crew Leader or Landscape Foreman. The position requires basic knowledge of tools and equipment needed for installation of planting and construction jobs. This person must be capable of passing along learned skills to new co-workers. Listed below are the basic tasks and responsibilities of this position; additional tasks may be performed as directed or required in the job.

- Reports to work on schedule as requested, including some weekends.
- Has a basic understanding of skid-steer loader operations needed for loading and unloading trucks and for installing planting and construction jobs.
- Has used hand tools, power tool and motorized machinery in a safe manner.
- Has a valid driver's license and is trained to drive two-ton trucks with manual transmission; practices safe driving.
- Has completed necessary training for all trucks and equipment needed for completing a landscape job.
- Loads truck with needed tools, plants and materials per list or as directed; checks trucks to ensure that all is loaded and secure.
- Reads and understands landscape plans and plant & materials lists.
- Installs plants and materials according to plan or as instructed.
- Has the ability to recognize and report (or stop) unsafe work behaviors.
- Has a basic understanding of plant identification.
- Works productively without immediate supervision, and as a team member.
- Reports problems or questions to the Crew Leader or Landscape Foreman.
